

WHY

GOOGLE IS NOT SHOWING

MY WEBSITE

WANTS TO KNOW

BEFORE WE START..

It's important to note that when you type something into google hoping to see your website in the search results, you're not actually looking for your website. You're looking for a page on your website.

01.

**Your
Website is
Too New**

02.

**You're blocking
search engines
from indexing
your pages.**

03.

**You're blocking
search engines
from crawling
your pages.**

04.

**You don't have
enough high
quality backlinks.**

05.

**Your page is
lacking “authority”**

06.

**Your have
duplicate content
issues.**

07.

**Your web page
does not align
with “search
intent”**
