Information technology news from ComputerWeekly User reviews 4 Star By me! Genius App that organises files, documents, and music into separate folders. It's only the best thing to do to your smartphone. It's a great app for all Android users. One of the best apps that you should not ignore. It's unbeatable! Download

it for your smartphone for free. 4 Star by Jez1 It's ok but not perfect Getter has a good vibe to it, but it's not consistent across apps. You'll end up wasting a lot of time searching for what you want and you may not even find what you need. It's ok when you need to get something done quickly.

3.5 stars by GizAzm Very nice, easy to navigate but might not be right for everyone. Love it! by Daniela Hernandez Lightning fast! Has an amazing interface and powerful filtering options.

3 stars by Carlella Di Lorenzo It is a great app for organizing things but the search functions are really bad. I am used to a different app. 4 stars by Lalit kaul 4 stars By Joshua Thomas Very handy
