Serial Number : Model : Serial : Proof House : Owner : F.N. A: Fn Browning Trombone 22 Serial Number Serial Number :  
Model : Serial : Proof House : Owner : F.N. A: That particular slide action FN rifle has the Browning proof mark stamped onto  
it. That indicates that it was proof tested at the Browning plant in Kansas, US. There is no serial number plate. If it was  
manufactured, it was done by the Browning plant in Kansas. Serial number would be an internal number. A serial number can be  
usually found by looking for a different proof mark on the rear of the barrel. You'll see that the proof mark may be stamped in  
the location where the proof mark is on the rifle you have. Check this link. Browning Proof House. There are at least three  
possible models that could be identified based on the slide, stock and barrel. They are Browning model FN-22. The slide is  
marked (3X), a ventilated receiver and the "FN" proof mark. The barrel has the Browning proof mark and the "22" proof mark.  
The stock has the FN proof mark. The FN-22 with its Browning proof mark, is an example of one of the FN-22s that Browning  
produced. That FN-22 is marked 3X. Browning Slide Action Rifle FN Proof Mark FN Proof Mark. FN-22/FN-22 The slide is  
marked (3X) a ventilated receiver and the "FN" proof mark. The barrel has the Browning proof mark and the "22" proof mark.  
The stock has the FN proof mark. The FN-22 with its Browning proof mark, is an example of one of the FN-22s that Browning  
produced. The FN-22 model with its Browning proof mark, is an example of one of the FN-22s that Brown 2d92ce491b
