It delivers every feature and effect you would expect from a professional DAW, but it does so in a remarkably user-friendly package that looks and feels like a feature-rich DAW, not a high-powered sampler or sequencer. With AAX,

AU, VST, RTAS, and Stand Alone plugins, you can process and manipulate audio at breathtaking sample rates and with unparalleled flexibility, all while generating pristine audio for your professional, club, or home studio. Advanced tools and features With AudioCopy ACID Pro 7 you can do much more than burn CDs from your audio file: you can save tracks, loop sections, and even record audio to WAV, MP3, FLAC, OGG, or AAC files. Simply drag and drop your audio onto the AudioCopy ACID Pro 7 window to start recording. You can even record

your audio from the Mac or PC's soundcard, or through a MIDI device. AudioCopy ACID Pro 7 can create MP3, FLAC, and WAV files, or save WAV and MP3 tracks as separate files. AudioCopy ACID Pro 7 can also capture audio loops, MIDI tracks, and even multitrack audio. And with AudioCopy ACID Pro 7's powerful waveform display, you can visually see exactly how your audio track will sound in real time. Get the power to do what you need With AudioCopy ACID Pro 7's multi-processor technology, you'll get the power to handle all your audio

conversion tasks. AudioCopy ACID Pro 7 is an all-in-one solution for audio and MIDI sequencing, multitrack audio recording and mixing, music production, mixing, and mastering. And thanks to AudioCopy's proprietary DMX-Audio, your audio files can sound exactly as they did on your studio multitrack recording system. Precise and precise You'll find the right timing at the right speed and in the right mood with AudioCopy ACID Pro 7. AudioCopy ACID Pro 7 features tools to find the best timing for overdubs, the best articulation

for drums, and the best panning and sound for each instrument. ACID Pro 7 also includes a built-in metronome, allowing you to have a click track ready to go right away. Add effects AudioCopy ACID Pro 7 gives you the tools to make your audio shine: you can use the effects in ACID Pro
