ISBN: 978-0-19-477632-5 Â· Price: \$54.00. â€œA magic square is, in fact, a square on which four separate squares are depicted, which do not have a common intersection point, but form a single composition. They can be placed on one side of a large puzzle, on a chessboard, or as room decor. A magic square can be the center of attention in a room or simply decorate a wall. To do this, it must be placed so that the borders of the squares are not visible.
