The most obvious difference is the audience. Photoshop is an industry standard, powerful tool that is used for creating images or web designs for print. Photoshop Elements is for you, graphic designers, web designers, web developers, and photographers who are looking for an affordable and versatile alternative to Photoshop. It is inexpensive and easy to use. The second is the tools. looking websites. The third difference is the price. Photoshop Elements costs \$99.99 and Photoshop costs \$699. My Main Reasons to choose Photoshop Elements The first reason is because Photoshop has more features than

Photoshop Elements. You may ask how Photoshop Elements has enough features for the price of \$99.99. It is because it has many basic editing tools and functions and is designed to make tasks easy for graphic designers and web designers. The second reason is that it is an easy-to-use graphics editing software with a simple user interface. If you know something about the basic graphics editing software, you will know that it can be used through its simple user interface. Photoshop Elements is designed this way to allow the user to easily perform basic tasks. A third reason is that it is lightweight. Q: retrieve radio button values with php I am trying to store the value of a radio button, so I can then use it later, but I cannot get this to work. It was almost working, until I noticed it will not even store the value if I have selected another. Here is the code:

```
$f_add_fees = $db->prepare("SELECT *  
FROM fees WHERE student = :student  
ORDER BY id DESC LIMIT 1");  
$f_add_fees->bindValue(':student',  
$student_id, PDO::PARAM_INT);  
$f_add_fees->execute(); $f_add_fees = $f_a  
dd_fees->fetch(PDO::FETCH_ASSOC);  
//Declaring variables $student_name =  
$f_add_fees['student_name']; $fees_subject

1,600 Kids Who Make it to Surgery Alive  
Children are benefiting from a program that provides them with pediatric surgery, state-of-the-art medical technology and expert surgeon care. In 2014, more than 1,600 children survived their initial surgeries at the Children's Hospital at Holy Cross, a reflection of the partnership between the healthcare system and MetroMass, an independent health care system serving more than 100,000 residents in the suburbs of Boston. The program - funded by an anonymous donor at MetroMass – provides surgeries from the hospital's state-of-the-art hospital facilities in cases that would have otherwise not been afforded such care. The program also has a unique cadre of surgeons

who provide expertise in pediatric surgery, including those who work with the program's first surgeon, Dr. Gregory Andrews. Andrews is an expert in dozens of areas of surgery, from organ transplants to pediatric and adult heart surgery. He said the greatest impact of providing pediatric surgery through the program has been the improvement in procedures and the quality of care that is provided. "Kids are better off because they come in, and they get the best surgeons and the best technology," Andrews said. A doctor with MetroMass for nearly 20 years, Andrews said the program is distinct because it focuses on children who are not able to provide consent, and not on life-and-death cases. About two-thirds of the children who are treated at the hospital receive care through the program. The difference in outcome is significant, the surgeon said. "In surgeries for tumors, for example, the average age in the United States is eight

years old, but we are doing surgery for children down to one-and-a-half years old,” Andrews said. One of the biggest benefits of the program is that it provides medical attention to children in the Boston area who otherwise wouldn’t have it, he said. “We treat kids that are too young to travel,” Andrews said. While the typical patient stays in the hospital for about a week, the charity programs have allowed many of the children to come home within 24 hours or less. Many of the children who have survived their surgeries have gone on to do great things in their lives, Andrews said. “To see an 8-year-old make it and have such a strong recovery, it
