election security The Hill's Campaign Report:

Arizona shifts towards Biden | Biden prepares for drive-in town hall | New Biden ad targets Latino voters Why Democrats must confront extreme left wing incitement to violence MORE said in a clip aired on NBC News on Sunday that he does not want to be an "electable loser." "What I want is to win this nomination. I want to win this election. And I want to win a general election. I don't want to be an electable loser. I don't want to do that, and so I don't want to be... I don't want to be someone who starts off with 51 percent, who wins the Iowa caucus, who wins the New Hampshire primary, who wins seven out of eight primaries and then drops out. So, I don't want to be a candidate who says, 'Hey, I'm a mainstream Democrat, I'm a relatively moderate Democrat.' I want to be a candidate who says, 'Hey, I'm a Democratic Socialist.'" ADVERTISEMENT The Vermont senator, who was responding to a question about whether he would participate in what he called a "farcical process," appeared to be referring to his campaign when he mentioned the phrase. Vibrobot is committed to engineering the world's best motion control solutions for industrial automation, healthcare, packaging, and many other markets. www.vibrobot.com is the best place for robotics

material and design tools, robot software and robot parts. Browse through thousands of design files, help documents and videos of Vibrobot products.

Vibrobot's extensive product portfolio includes linear actuators, synchronous motors, servomotors, stepper motors, linear and rotary positioners, stepper drivers and robots. Vibrobot also supplies robot and motion control development tools including CAD and CAM software, motion planning software, motion control software, software library, industrial robot software and middleware. Vibrobot has extensive technical support and services to support the needs of manufacturing companies. Technical support options include service, maintenance and repair programs.

Vibrobot also offers technology training and consultancy services. www.vibrobot.com . Pegasus Motors (Pegasus Motors) is a manufacturer of high precision servo motors and drives, linear actuators, .

Pegasus Motors has launched a new round of financing to strengthen its global reach and accelerate growth. The new investment will increase sales and research and development funding to help it develop new products and expand its manufacturing

capabilities. Pegasus Motors' goal is to be the leader in the global manufacturing of high precision motion control solutions. For the past 20 years, Pegasus Motors has innovated motors, drives and robotics that bring unique technologies and features to the market. Their high precision motors and drives are used in a broad range of applications including: pick and place systems, AGVs, CNCs, laser engraving systems, 3D printers, medical systems, optical devices and semiconductor equipment.

www.pegasusmotors.com . Boom is an innovative manufacturer of fully integrated programmable motion control solutions. The Boom family of products includes drives, . Boom's advanced motion control technology, flexible development tools and easy to use programming language allows engineers of all levels to quickly integrate motion into their robot. It's easy to verify that all motion created by a device is part of an application. Just write a simple program 1cb139a0ed
