I'm happy with it. A good way to introduce my tools. Gabriel S. February

2015 Good Product, but as with most of the things to do with voiceover I discovered that there are better products out there. Andrea P. February 2015 It's an excellent product with a lot of functionality. Michal P. February 2015 Similar to other products from the same producers, but much more advanced and better designed. This is my first product for the industry, very good experience and I recommend you to try this tool.
