Running on water Hi, I've recently acquired a QH frame, bought as a rustle wind. It's a decent frame that I suspect might be worth getting back into, once I get the time. I had a few issues with my old BME that I figured I'd post here as it was said by others here that they didn't know a lot about them. Firstly, the brake blocks don't seem to be part of the frame (but that might be ok). As such they cannot be removed, they do however lock securely in place, perhaps this could be fixed with a wedge in the same place as on the BME? Secondly, the seatpost seems to be attached by no method, instead it just seems to be slotted in the frame, however it appears to be wedged in place. I've figured this is probably ok to
