Soil Mechanics Lambe And Whitman Pdf 1683 External links Théorie de l'Acier, public domain book Category:Soil mechanics While we're no experts in kids, we've got another pair for you - two video game-loving, super-awesome, "eat dinner" and "the guinea pig" girls - Addison [8] and Amelia [10], who are my little sisters. No, no, they are not twins - although their mom tried for a second time to get them the next day. That one never worked. But they are still the best siblings ever. So... why tell you kids about them? Because they are awesome. Liking video games, especially at your age, is good - It's awesome - even though I might not be a master of them. This is Addison, so to speak, at an arcade. And she likes to sit on the floor, and play, and follow, and do such things - And she fell in the Crayola factory, after watching her sister grab crayons, and she has a cute scar on her hand. And she loves anything with batteries. She will sit in her room, eating her lunch, and just playing all day, sometimes. And she will keep surprising me. And this is Amelia. She's a couple of years older, and she loves baseball. She is a little early bloomer - but she's just starting to shoot up! And she has this little red hat - and she will not be separated from that! She's really funny, too. You will not believe - when she went to her doctor, with a fever, to get a shot, she told him, "that's a really good game to play - I just was at the Crayola factory, and the Crayola machine was running, and I was chasing after crayons, and then I tripped, and the floor is wet with Crayola crayons."
