In my iPhone Project I have two folders namely 'Images' and 'Shared' And I want to give permission to images and shared folder to access so that my application won't crash when I try to access these folders. Please Help! A: You can set permissions for folders using this code: `DirectoryInfo directory = new DirectoryInfo(@"Images"); // Create a FileAttributes object. FileAttributes fileAttributes = File.GetAttributes(directory.FullName); // Set permissions to read & execute. fileAttributes.SetAccessControl(AccessControlType.Allow, new SecurityIdentifier(WellKnownSidType.EveryoneSid, null), new SecurityIdentifier(WellKnownSidType.AuthenticatedUsersSid, null), permission);` Repurposing Food or Drugs to Treat Malaria: Exciting Ideas or Dangerous Hypocrisy? Malaria is one of the leading causes of deaths globally and curative medicines are limited. Food or drugs (F&D) mediated malaria prophylaxis or intervention could be a sustainable solution. Repurposing of F&D can be useful in minimizing the cost of new drug discovery and development. This review focuses on present and potential uses of F&D in treating malaria. We have emphasized the prospect of repurposing drugs (F&D) for treatment of malaria such as anti-malarial agents, anti-malarial drugs, anti-malarial-food and anti-malarial-drug combinations. Most of the time, drugs are given orally, but F&D administration has been reported in literature. Whole food such as tea, honey, garlic, and grapefruit are also suggested. Q: Mouse over image suddenly disappears I'm trying to create a simple gallery and one of the problems I'm having is that when the mouse hovers over the images everything works fine, but when the mouse leaves the image the images disappear and the mouse is no longer centered. I can't understand why this is happening or how to fix it, any suggestions? HTML:
