## Clipboard Launcher [Mac/Win]

Clipboard Launcher is the best utility when it comes to managing your Clipboard. Its simple UI makes the whole process of copying, editing, and restricting access incredibly easy, but there is one major drawback and that is the fact that Clipboard Launcher requires a paid license for this software to function correctly. The Free Edition is only good for using the app itself, but if you want to be able to use the real features you have to upgrade. “My friend used it to transfer his New Year’s party invitations to me; I was able to print them out immediately. “Highly recommended ” Thomas Verified “A must-have tool to get your clipboard working again” John Verified “It’s very powerful, as it allows to work with various types of files” Rachel Verified “Works perfectly on my PC” Beverly Verified “This is a very useful tool” Matt Verified “I like it, it works in a very simple way” Timothy Verified “Lots of features” John Verified “This is a must-have application” James Verified “It is not very difficult to use and handles my copy/paste options very well” Kevin Verified “It supports custom file types and works with both the 32 and 64 bit windows” Ron Verified “It is extremely helpful” Charles Verified “Works very well on my PC” James Verified “It is a

#### What's New in the?

Clipboard Launcher is a software tool that was developed in order to help individuals view elements they have sent to the Clipboard, as well as edit and manage them. Advantages of portability This utility is portable and thus, the installation process can be skipped altogether. As a result, the Windows registry is not going to be affected, and no traces will remain after its removal. Another important aspect is that by

---

copying the program files to an external data device, such as a pen drive, you make it possible to run Clipboard Launcher on any computer you have been granted access to.

**Simple interface** The UI you come face to face with encompasses a clean and plain design, as it contains a few panels which let you edit selected items, and view a list of all items copied and apps used. Anybody can learn how to get around it with great ease, including people with little or no previous experience with computers.

**Copy, edit and restrict access** This software tool enables you to view all items you have copied to the Clipboard, along with the time, thus allowing you to re-use particular elements. In addition to that, you can open them in their default apps and edit them. It is possible to display only items that have been used in a specified program, as well as enable or disable the retrieval of what you copy. CPU and memory usage is minimal, which means that the computer's performance is not going to be hampered and you can run this app alongside others, without experiencing any kind of problem.

**Conclusion** To sum up, Clipboard Launcher is a useful piece of software when it comes to managing your Clipboard in a more efficient manner. The response time is good, the interface is accessible and we did not register any kind of errors. This page was last edited on 12th June
