Fujitsu Siemens PA 1510 Battery Replacement. Fujitsu Siemens PA 1510. The combination of the WatchOS 3 software update and Series 2 watch's new Digital Crown is the key to this watch's success. Apple Watch Series 2 continues to trump the competition. In just its first two months on the market, the Apple Watch has taken over as the most popular smartwatch, according to a December 2015 study by Consumer Intelligence Research Partners. Even more telling, Apple Watch's success isn't limited to the US; it's also off to an equally successful start in the UK, as indicated by the fact that it's now the most popular smartwatch sold in the UK. In fact, the Apple Watch is now so wildly successful that it's putting the watches of rival vendors out of business. Traditional Swiss manufacturers, who have dominated the watchmaking industry since the turn of the century, are struggling to keep up with Apple's aggressive expansion into the smartwatch market. Apple Watch Series 2: The Key to Its Success As a result, Apple has the potential to become the next Swiss watchmaker, and it's already making serious inroads. Unlike previous generations of Apple watches, there are no notches, holes, or anything else on the body of Series 2 Apple Watch. Instead, the stainless steel case sports a smooth clean look, leaving no gap between its edges and the user's wrist. For those not used to having something as utilitarian as a smartwatch on their wrist, the look can be off-putting. However, once
