The perfect utility for managers of large multiple downloads from hundreds of sites. The software's excellent visual design and intuitive interface make the user experience a pleasure. "Downloads Manager" is developed in the latest version of the source code of Fergo and first of its kind in this market.

"Download Manager" has a large number of options, the most important feature of Fergo, which enable you to download multiple files from multiple servers at once. The software was developed not to impeded your work, but to increase the downloading speed, improve the quality of the downloaded files. "Download Manager" is a user-friendly multi-thread downloader. The software is able to make a parallel connection with many servers for the download of large files at a time. Download Manager allows you to determine the maximum number of threads to be used at one time, which is not limited to the number of available processors or the maximum number of connections. Tetris Download Manager is a software developed by the developers of Fergo. The following changes have been made in this version: - Made available for all platforms. - After the update, it is possible to extract any file from an archive. - Improved the test program. - Full support to heecha.net and heecha.org. - From now, "downloader".exe version is free for personal use. - Download Manager is compatible with Windows 8, 8.1 and 10. - Download files are not deleted after the downloading process. - This is a computer software intended for use only by responsible users. . 0 Downloads: ID Title Size Price Recommendations Reviews View 18 Fergo Review Check Alcohol Still Not Spreading 261 B 0.00 Fergo will be the ultimate download manager software, it is quite fast and robust. I would definitely recommend to all download managers who have to open lot of download links at once. Fergo can be used as a torrent download manager and it is a standalone app. Once the download is done, you can delete all unnecessary files. You can download Fergo from www.fergo.com Reviews: Full marks to Fergo. I've tried with some of the popular third party apps and Fergo is on a whole
