Neurontin is used to treat a number of conditions such as pain and migraine headaches, nerve damage (paraplegia), neuropathy, epilepsy, alcohol withdrawal, and for neuropathic pain relief (IBS, Fibromyalgia, HIV-Neuropathy) and is used as a treatment for depression and anxiety disorders. It is also used to treat certain types of epilepsy, nerve pain, bipolar depression, and other forms of neuropathic pain. It is prescribed along with other antiepileptic medications to manage intractable partial epilepsy as adjunctive therapy (in combination with antiepileptic drugs). Neurontin's mechanism of action is not fully understood but it seems to block voltage-dependent sodium channels, which may be why it has been used so frequently in the treatment of epilepsy. However, it is used for other conditions outside of epilepsy as well, such as fibromyalgia, neuropathy, and migraines. Neurontin can have side effects that include nausea, dizziness, drowsiness, and muscle twitching. What could be more exciting and fun than to enter the surreal world of 'Virtual Reality' or VR? The 'Holographic' headsets give users a chance to explore things in their bedroom while lying in their beds. VR provides them with a true experience of being in completely new places and places they were never before in. Well, where is it used? There are many fields where VR and Holograms could be used. Some examples are tourism, advertising and gaming. Daily Journal is a brilliant example for the use of virtual reality in the gaming industry. As they say, "having fun has never felt as easy as with VR." Whether you play action, adventure, racing, shooting or roleplaying games, you will feel real when you play them in VR! Feature Overview Daily Journal includes: Password Protected Data Password protected accounts. Each user can create his own password. The password is only visible after login. An empty password means that the account is locked so that nobody else can use it. Virtual Pad Available for all your drawings. The virtual pads are like tablets. You can draw on it while lying in bed. Create New Accounts After creating an account, you will have the option to set up an email address, an account password, a contact name and a surname. You will also be able to make user groups. This lets you access your accounts in different ways based on your needs. Make New Diaries After creating a new account, you can choose which type of diary you would like to use, be it a simple text diary, a chart, a calendar or a combination of different techniques. Printing Diaries You can also export your diary by copying it to your computer in PDF, PCL, TIFF or vector format.
