I recently stumbled across Fashion Systematic by Ashleigh S. Winters and I'm absolutely loving it. I've been the go-to girl for my friends when they want to know how to shop for themselves - which is a hard thing to pull off when you live with others. Ashleigh's book provides insights, motivation, and inspiration. It's like a step-by-step guide to self-care, fashion, and beauty. Not only is it filled with practical information, but its charm and style help you to make yourself feel great. One of the reasons that I loved this book was that it showed me that you can be your own personal stylist and still pull off a cute outfit. Ashleigh helps you figure out what style of clothing suits you best. She includes where to find the best clothes, the different ways to fit your body type, and how to find clothes that flatter you. In the beginning of the book she talks about how important it is to know yourself. You've got to know what it is that you like, you need to know your strengths and weaknesses, and then you have to really figure out what works for you and your body type. That's what I appreciated so much about this

book - it helps you to figure out what you
