AquillaXp started as an application to download various torrents without actually visit those pop up sites. It has a very simple interface but underneath it lies about thousand lines of code, with multi thread support for efficient GUI response and more. AquillaXp Version History: DIGG THIS I have been preaching the gospel of conservative resistance to Obama's state-run health care takeover for awhile now, but I just read a column in the New York Post that cleared up many of the gray areas of conservative reasoning and positioned them for dramatic attacks on Obama if he ever seeks passage of the hated "public option." The author, a conservative columnist by the name of Ralph Bello, for years has been a thorn in the side of the Club for Growth, which is largely populated by Ron Paul supporters, a media darling, and heads of corporate America. Ralph has a sort of T-shirt business going that helps the Club for Growth candidates, and his unorthodoxy has made him a favorite of Ezra Klein's. Bello is the only columnist in the Post who has the courage to rant about how disgustingly disgraceful it is to go along with this bullshit health care crap. Take note, Ron "Senator" Paulistas! This guy is your guy! "I am apoplectic at the spectacle of Congress members I respect (such as Jim DeMint) and former colleagues I admire (such as Ron Paul) actually going along with this president's health care plan." Bello has kept up with the developments of the anti-public option movement that is a thorn in President Obama's side, and his columns and contributions to the Washington Examiner and National Review, respectively, are must reads for conservatives. So take heart, Tea Partiers! Their nominee, Ron "Senator" Paul, has not been so pajama boyish lately. Ralph is on your side. He's got a book coming out called "The GOP Betrayal of the Right, How the Teabaggers Were Betrayed by Reactionaries and Cowards" and will be out in November, but he's a

walking add on this column and is qualified to write a book about Teabaggers because of the many libertarian-leaning conservative causes he's been fighting for. Perhaps that's why he's moved from the Examiner to the Post. He's more relaxed about the "public option" now, and he should be a tremendous asset in your future efforts at becoming a politics-free
