

# Excellent Vascular Neurosurgery Services by Mr Ivan Bhaskar

Looking for a skilled and compassionate [vascular neurosurgeon](#)? Mr Ivan Bhaskar is your go-to specialist! With years of experience in the field, Mr Bhaskar is committed to providing holistic, patient-centred care using advanced surgical techniques and cutting-edge technology.

He investigates, diagnoses, and manages complex neurovascular conditions, ranging from hydrocephalus and benign (meningiomas, acoustic neuromas etc.) to vascular malformations (aneurysms, cavernous and AVMs), with utmost precision and attention to detail.

Mr. Ivan Bhaskar is a highly qualified Australian trained Neurosurgeon with a double in Neurosurgery and sub-specialization in Minimally Invasive Spine Surgery (Key hole spine surgery). Mr. Bhaskar has honed his skills with years of experience and extensive training at various universities across the world and Australia.

Mr. Bhaskar provides Neurosurgical services consulting in Bacchus Marsh, Gisborne, Werribee, Bendigo and within the Metropolitan area at the Valley Hospital, St Vincent's hospital, Epworth Richmond while consulting at Epworth Eastern.

His areas of expertise include Brain tumours, benign (meningiomas, acoustic neuromas etc) and malignant (cancers such as Glioblastomas), vascular malformations (aneurysms, cavernous and AVMs), hydrocephalus besides others.

He has done a fellowship in spine surgery and further trained in Minimally invasive spine surgery (MISS) including endoscopic spine surgery that is only starting in Australia.

Spine surgeries include treatment of disc prolapses, degenerative disc disease that need fusion operations, fractures of the spine and last but not the least all types of tumours of the spine.
