

Get vascular Surgery from a Trusted Neurosurgeon

Vascular surgery involves a range of open and minimally-invasive surgical procedures. These can treat blood vessel issues like aortic aneurysms, peripheral artery disease, carotid artery disease and chronic venous insufficiency. If you are recommended for vascular surgery, consult Mr Ivan Bhaskar, an experienced neurosurgeon based in Melbourne.

Mr Ivan Bhaskar is a highly qualified Australian trained Neurosurgeon with a double degree in Neurosurgery and sub-specialization in keyhole spine surgery providing **Neurosurgical services** in Metropolitan Melbourne, Bacchus Marsh, Gisborne and Bendigo.

Mr Bhaskar has also completed a Spine Fellowship and has expertise in keyhole **spine surgeries** with state of the art equipment to aid such surgeries for the management of back pain and complex spinal conditions. In addition to performing Robotic spinal surgeries at the Epworth Hospital and The Valley Private Hospital, he has trained further to provide Endoscopic spine surgeries in selected cases.

He has had extensive experience with complex **Brain** and **Spinal** surgery having worked for the last 15 years in this specialized field.
